SUMMARY

Experienced software engineer driving cutting edge solutions. Proficient in diverse technologies with a focus on robust code quality. Proven and recognized for overcoming complex challenges.

SKILLS

Languages: C#,SQL,Postgres,Docker,Git,Typescript,Tailwindcss,Jquery,Html,css.

Technologies: Asp.Net-MVC,React,React,Node,Express,Postgres,RestApi's,.NetCore,Sql,AWS,Linq,Git,Docker,System design,TFS

AWARDS AND RECOGNITIONS

1.Bravo Award 2023 -Best contribution in team

EXPERIENCE

- 9/2021 – Present **Senior Software Engineer** **Persistent Systems**
- Developed new quality features,Change Request(CR),Technical Enhancement Tasks and Bug Fixes.
 - Streamlined code base to improve load time by 20% and reduced server response time by 15% for client's application.
 - Led the end-to-end development of a comprehensive product suite for a major client, implementing a highly optimized approach that reduced database load by 40%. Streamlined processes to ensure efficient request handling, achieving a 30
 - Revamped server-side architecture, boosting system performance by 40%, and established a detailed logging framework; accelerated bug resolution process by 50% with precise, scenario-based log entries.
 - Boosted server-side performance for an existing workflow, optimizing code and reducing response times by 25%. Implemented a comprehensive log system, resulting in a 30% reduction in bug resolution time. Ensured accurate logging of essential information, expediting bug resolution and improving overall system efficiency.
- Technologies-Asp.Net MVC,Entity Framework,RestAPI,C#,SQL,Jquery,Javascript,Bootstrap,Html,Css.
- 6/2020 – 1/2021 **Intern** **Alive Tech Services**
- Engineered a agile Android Ecommerce app with a user-friendly interface, facilitating a 30% increase in user engagement.
 - Added robust security measures resulting in a 25% decrease in transaction errors and a 20% boost in customer trust.
- Technologies - Android,Java,Firebase,XAML

EDUCATION

- 6/2017 – 6/2021 **G.H Raisonni Institute of Engineering and Technology,Nagpur.** **Graduation**
- Bachelors in Computer Science and Engineering

PROJECTS

- Asp.Net MVC **Reliance General Insurance**
- Implemented cutting-edge features and managed Change Requests, leading technical enhancement tasks for Reliance General Insurance's web application; resolved critical bugs, enhancing platform stability and reducing downtime by 40
 - Performed front-end optimizations, achieving a notable 20% boost in page load speed and a 15% reduction in server response time.
- Asp.Net MVC **Decentralized Crypto Exchange**
- Developed a crypto exchange Application, a web-based platform that replicated the core functionality of how crypto exchange works, catering to the needs of investors and traders. Achieved a user engagement increase of 30% and a 20% improvement in page loading speed through optimized code and responsive design.
 - The application is designed to allow users to add usdt/inr from bank into the user wallet and buy crypto by exchanging with usdt or inr from wallet.
- MERN **Buy Easy Sell Easy**
- Spearheaded the development of an E-Commerce application using the MERN stack, showcasing expertise in React.js for frontend, Node.js and Express.js for backend, and Postgres for the database.
 - Achieved seamless user experiences through the implementation of a responsive design and a RESTful API, emphasizing a strong focus on e-commerce platform development.
